## CUBAN REBELS ARE DEFEATED IN BATTLE

### Rural Guards Put the Liberal Forces to Flight.

### INTEREST CENTERS IN AMERICA

**It Is Now Confidently Believed on the Isle of Cuba that the United States Will Eventually Intervene in the War Now Going On.**

Havana, Sept. 17.—Heavy fighting is reported near El Cano, 10 miles to the southwest of Havana. No details have yet been received. Government forces have won a victory over the rebels at a point close to Havana.

General Rodriguez, with 400 rural guards, attacked the rebels under General DelCastillo and Colonels Asbert and Acosta, 1,000 strong, at Wajay, 12 miles south of Havana. After a stubborn fight the rebels were dispersed. Eight of their number were killed and 23 were wounded. Of the guardsmen one was killed and 13 were wounded.

General Rodriguez returned to Ha-

President Palma.

vana Saturday morning. There is considerable speculation as to why the enemy was not pursued.

A force of rebels have destroyed two stone bridges over a highway near Cabanas.

The commander of the Cespedes, a coast guard vessel, has been arrested for negligence in allowing ammunition for the revolutionists to be landed near Rio Sud.

President Roosevelt's action in sending Secrtary of War Taft, and Acting Secretary of State to Cuba to investigate conditions in the island, was regarded favorably on the whole by those who were first apprised of it. Cubans generally, it may be said, do not desire intervention of any sort in Cuban affairs, but sentiment in favor there for a settlement of some kind now predominates. The conviction is overwhelming that the trouble must be settled through the United States.

The truth of President Roosevelt's picture of the revolution and his reference to the right of the United States to intervene is not questioned.

Secretary Taft's reputation as a pacificator and as an administrator in the Philippines, makes his coming particularly welcome.

---

Boston, pSet. 17.—Orders for a detachment of sixty marines to proceed at once to Norfolk, Va., were received Saturday from Washington at the Charleston navy yard. On arrival at Norfolk it was arranged to embark on a United States cruiser bound for Cuba in connection with the Cuban insurrection. The marines will leave Saturday.

---

Portsmouth, N. H. Sept 17.—A detachment of 660 marines under command of Captain Charles F Hatch, left the Portsmouth navy yard under hurry orders Saturday on their way to Norfolk, Va. It was the opinion among the officers at the local yard that the marines were being hurried south in order that they might be available for service in Cuba.

---

New York, Sept. 17.—Pres. Roosevelt's letter to the quarrelling Cubans in which he called for peace and announced that he would send Secretaries Taft and Bacon to Havana at once to inquire into the conditions, is pleasing to business men here whose interests in Cuba had begun to suffer. The suggestion that he send a commission to Cuba, it was stated, came from them. One of the most prominent Cuban bankers in this city said:

"President Palma cannot cope with the revolutionists, because it is impossible for any military power in the world to prevent rebels from burning crops and the destroying of railroads. If the rebels engaged in open battle, the government forces would be victorious, but they scatter and hide in the mountains and woods so that it is impossible to capture them.

"President Roosevelt did not wish to intervene in Cuban affairs, but he has had to do so. I believe that as a result of sending a commission to Cuba the revolutionists will lay down their arms and both sides will tell their stories. Then, after a conference matters can be amicably settled."

Secretary Taft and Secretary Bonaparte reached Long Island City from Oyster Bay at 11:30 Friday night. They refused to discuss their conference with the president.

Secretary Taft said that he and Assistant Secrtary of State Bacon will leave for Cuba Sunday night from the city of Washington. They will go by rail to ey West and embark there on a warship for Havana. He said he could not tell when they would reach Cuba, as they had not looked up the time tables.

The Times quotes a prominent Cuban official who has just arrived from Cuba, as saying:

"Cuba is doomed and the republic has fallen. That for which our forefather's fought for over 40 years and died for, has been destroyed by Pino Guerara in a few days on account of jealousy. President Palma can do nothing with the bandits who lurk in the woods and come out at night to burn crops and destroy property. If the Americans who talk easily of annexation stop to think what it means to us, they would not be so hasty. There are thousands of Cubans whose parents and relatives have been executed in the cause which has been betrayed today by Pino Guerara and his fellow traitors."

On being informed that Secretaries Taft and Bacon were going to Cuba, Colonel Charles M. Aguirre, the head of the revolutionary junta, sent a cable dispatch to Havana advising the insurgents to stop fighting pending the outcome of the mission of Mr. Taft and Mr. Bacon. Colonel Aguirre forwarded the message to Felipe Romano, to Havana, who has been acting as an intermediatory for General del Castello, in his offer of surrender to Commander Coldwell, and who will deliver it to Dr. Alfredo Zyas, executive head of the insurrection.

"I am pleased to hear," said Colonel Aguirre, "that two such representative men as Mr. Taft and Mr. Bacon are to investigate the situation right on the ground. We are ready to do whatever President Roosevelt might reasonably suggest."

---

Havana, Sept. 17.—Eduardo Chibas, a prominent resident of Santiago, said to the Associated Press Saturday:

"The entire province of Santiago will burst into revolution unless the United States intervenes immediately. There must be a protectorate or there will be no permanent peace in Cuba."

**Six Bodies Recovered.**

Toledo, O., Sept. 17.—Six bodies have been recovered and at least four more are being searched for in the Maumee river, as a result of the accident Friday night, when a hanicar plunged through an open draw of the Maumee bridge. The men were track hands of the Wheeling and Lake Erie road, according to the checks found on the bodies that have been recovered.

**All Quiet at Warsaw.**

Warsaw, Sept. 17.—Everything is quiet here in spite of the fact that the authorities are actively engaged in searching the Jewish quarters and making hundreds of arrests. It is generally feared that a Jewish attack here is unavoidable, and the Jews predict an attack for the Jewish New Year, Sept. 20th.

## IN THREE HOURS WOMAN DRANK QUART

### Whisky Drinking Capacity Ascribed to Missionary.

### RECTOR ROUGH ON THE WOMAN

**Rev. Mr. Milbanks, Formerly of Waycross, Ga., Goes on the Stand as a Witness for the Clergyman Who Is Being Sued for Libel.**

Chicago, Sept. 17.—One quart of rye whisky in three hours is the record of capacity ascribed by witnesses against Mrs. Florence V. Huntington, the missionary, in her libel suit against Rev. Dowell Phillips, former rector of a fashionable Episcopal church, in East Chicago.

The testimony was sensational in the extreme and a former Georgia pastor and Georgia scenes contributed largely to the tobasco injected into the proceedings.

Rev. John F. Milbanks, an Episcopal clergyman now of Independence, Kans., formerly in charge of a parish at Waycross, Ga., testified to having first met Mrs. Huntington 16 years ago in Milwaukee. She told him she had a brother who was a clergyman. Five years later she visited him at Geneva, O., and later at Waycross, Ga. He said at Geneva his wife was about to go to Toronto for a visit and Mrs. Huntington suggested that she stay at his house after his wife left. "I told her that it would be improper and it would never do. I insisted upon her leaving" replied the witness.

"At Waycross, Ga., she lived at the hotel, but was in and out of the rectory all the time. She wanted to go to St. Augustine, Fla., and asked me to take her there. My wife urged me to go with the woman, as she declared she was ill and unable to travel alone. I accompanied her and introduced her to the British consul and the church people there and then came away".

Several years afterwards she said he gave her letters of introduction to his wealthy relatives in England and she went abroad. He said while in England she gat into trouble with his uncle.

On cross-examination he admitted that Mrs. Huntington had paid the expenses of his trip to St. Augustine, Fla.

The witness,, he said voluntarily came to Chicago to testify in the case and that he has paid his own expenses.

"I think it an outrage that such a woman should make these charges against a clergyman of Dr. Phillips' character."

Other witnesses told how the saloons of East Chicago had named straight whisky the "Huntington cocktail" out of deference to Mrs. Huntington's capacity; of how she carried a stiletto for a troublesome landlady; that her reputation for veracity was bad and that her example was very bad. The wife of an editor in East Chicago asked if Mrs. Huntington had ever lived at her home, dramatically responded: "Thank God, no." The same witness said Mrs. Huntington used to lean her head on the editor's shoulder and ask him to accompany her out at night. Asked if her husband had ever gone out at night with Mrs. Huntington, the witness replied: "No but he might had he been a younger man. My husband is quite old."

The hearing will be resumed on Thursday, Sept. 20, at 1 p. m.

**Gigantic Coal Merger.**

Boston, Sept. 17—The Herald says that a coal merger whose scope is said to be the largest in the history of Cape Breton, is engaging the attention of the New England and English capitalists. The men behind the movement are Henry M. Whitney, of this city; B. F. Pearson, of Halifax, and Graham Fraser. When the merger is effected, which will be in the very near future, it was said, it will equal if not surpass in commercial importance the Dominion Coal company, which has hereto fore dominated the Breton colliery business.

### POSSE OF FIFTY SEEKING NEGRO

**Negro Preacher Was Implicated in the Carter Murder.**

Valdosta, Ga. Sept. 17.—Reports received here from Hahira state that a mob of 40 or 50 men in the northern part of the county have been looking for Frank Turner, the negro preacher implicated in the Carter murders, which occurred in this county last year, with the intention of lynching him.

Turner is the man who Alf Moore says approached him with the proposition from J. G. Rawlings to kill the Carter family. He was released from prison here this week on a bond of $500 signed by himself. At the trial of the Rawlings' cases Turner was found guilty of being an accessory to the murder solely on the evidence of Alf Moore and the jury recommended him to the mercy of the court. Judge Mitchell sentenced him to 20 years in the penitentiary, but the case was carried to the supreme court and the verdict of the lower court was reversed. As it was found impossible to get any further evidence against Turner, he was released on his own bond. He went to Hahira from this city, but learned that he would probably be dealt with severely and it is said, he has disappearede from that section.

**Steamer Oregon Strikes Rock.**

Seattle, Wash. Sept. 17.—A dispatch to the Post from Valdez says that the steamer Oregon hit the rocks on the beach of Hinchinbrook island at the entrance to Prince William sound at 12 o'clock Friday night. She was trying to find the entrance in the darkness when the headland loomed up and although she reversed the engines, the vessel struck hard enough to tear the bottom off. The Oregon struck at low tide and water filled the engine to the third grating. The revenue cutters Rush and McCullough left to take off the passengers. There was no sea running at the time she struck, but the steamer is exposed to the full force of the swell and if the wind rises she is in a precarious condition. The wreck occurred 70 miles from Valdez. The passengers are all safe. The vessel will be a total loss.

---

**General Strike Ordered.**

Chicago, Sept. 17.—A general strike of all shop employes on the Wabash railroad system has been ordered to take effect next Monday morning at 10 o'clock. The order affects 1,600 skilled workmen, including machinists, boiler makers and blacksmiths. Jas O'Connell, president of the International Association of Machinists, before leaving Chicago for Washington last night, said that everything possible had been done to avert a strike, a walkout of all the employes in the repair and machine shops of the road could not be avoided, unless the company should agree to the terms of the men.

---

**Charged with Murder.**

Natchez, Miss., Sept. 17.—The coils are tightening about Abraham Goldstein, the Franklin street Hebrew, who is in jail on a charge of murdering his wife, and his eight-year-old daughter. Tillie now says that her parents had a quarrel and her father cut her mother with a knife. Goldstein's sister, Mrs. H. Robenowitz, of Chicago, who arrived here on the night of the quarrel, was placed under bond to insure her appearance at the preliminary hearing.

---

**Three Are Overcome by Smoke.**

New York, Sept. 17.—Ida Peterson, 25 years old and three children living on the top floor of a tenement in the rear of No. 80 York street, Jersey City, were overcome by smoke and severely burned in a fire which started from an overturned lamp. Frank Peterson, 5 years old, died in an ambulance on the way to the hospital. Mrs. Patterson and her infant child are expected to die.

---

**Several Injured in Car Crash.**

Seattle, Sept. 17.—Three street cars, one loaded with passengers to the guard rails, collided in First avenue early Saturday and more than a dozen passengers and car employes were injured, three of the passengers are not expected to survive. Rues Hall, manager of the Seattle Baseball club, was a passenger and was cut about the head and bruised.

## CRAZY ON RELIGION BLACKS CAUSE RIOT

### Four Negroes Cause Race War In South Carolina.

### WHITES ATTACKED BY BLACKS.

**The Deranged Negroes Finally Took Refuge in Cottage, Where They Were Overpowerd—Two of Negroes Will Die from Their Wounds.**

Greenville, S. C., Sept. 17.—Suffering from emotional insanity, superinduced, it is believed, by religion, four of the best negroes in Anderson county became violent, pulled one white man from his horse and forced him to flee for his life, wantonly destroyed a mail box belonging to a whit eman, stoned the white man and his wife when they offered resistance and finally barricaded themselves in their cottages, where they sturdily resisted all efforts made to arrest them.

One of the four negroes was shot while in his house, and died later. The other three have been lodged in the jail at Anderson.

Reed Anderson, 65 years old; William Anderson, Elsie Anderson and Aaron Anderson, all of the same family, were the four negroes. They, together own more than 200 acres of fine farming land, and are generally regarded as the most respectable negroes in the county. All four of them became violently insane, and met Mr Talmadge Merrit, who was pulled from his horse and forced to flee for his life. Later, the negroes went down the road and came to the place of Mr. James Long, and tore down his mail box. When Mr and Mrs. Long ordered them away, they stoned the farmer, and his wife was cut by the flying missiles. The negroes were captured and tied, but they broke away and went to their cottage, where they barricaded the doors. A large crowd of white people gathered about the house and waited outside, it being evident that the crazed negroes were armed.

Dr. W. A. Tripp, hoping to administer some sleeping potion, finally gained admittance, but was shot in the face and hurled through the door. He is not seriously hurt.

Finally, Sheriff Scott, of Anderson county, was admitted by the negroes and the maniacs were handcuffed.

Reed Anderson was shot in the melee and will die. Others of the negroes were suffering from bruises and cuts and one other may die. Mrs. Long was not seriously hurt by the rocks.

The affair created excitement, but there were no efforts made at lynching, as the negroes were very favorably known, and it was easily seen that their reason had been dethroned.

**Powder Magazine Explodes.**

Nashville, Sept. 17.—Saturday morning at 12:10 o'clock the powder magazine located 4 miles north of this city and owned by the Keystone Powder and Manufacturing company, in which was stored ten thousand pounds of dynamite exploded. The report was heard at points 40 miles from Nashville. Considerable damage was done to the houses in the neighborhood and hundreds of fowls were killed. It is not known whether any one was killed. The loss is placed at $2,500. Incendiarism is suspected. The company is an independent concern.

New York, Sept. 17.—A Paris cable to the World quotes Sarah Bernhardt as saying that Patti is foolish to retire if she can sing at all. Madame Bernhardt said: "Mme Patti is not old unless she is seventy, and I do not think she is that old yet. I do not mean to retire even when I am seventy years of age, if I am still able to act."

# GAINESVILLE PEOPLE SHOULD GET BUSY

## University of Florida to Open Here On September 26.

### SHOULD HAVE A FINE PROGRAM

**The People of Gainesville Should Get Together and Provide For a Reception Which Will Go Down in History to the Credit of the City.**

As the time draws near for the opening of the University of the State of Florida—one of the greatest educational institutions in the South—for the first time, we are beginning to think whether our citizens, as a rule of the most enterprising set, are going to do anything to mark the great event

When the fight was on earnestly between Lake City and Gainesville for the location of the school, and a number of our enterprising citizens and business men had "struck camp" in Tallahassee adjoining the camp of a similar aggregation from Lake City in an endeavor to wield their influence, there was a marked degree of enthusiasm; but since these good people succeeded in demonstrating that Gainesville was the proper place, and the University was located here, there seems to have been little outward enthusiasm.

We would not be understood in this remark that the people of Gainesville are not enthusiastic, for they are proud of the fact that we have become known as the University City of Florida. But has it occurred to our people that the time for the opening of the University for the first time in Gainesville is rapidly approaching? Well, this is a fact, and if you will refer to the calendar you will find that we have now only seven days in which to get ready.

The people are anxious for a demonstration upon that occasion—an occasion which will go down in history as one of the greatest and grandest Gainesville has ever known.

It seems that it would be the duty of the Board of Trade to get together at once and arrange a program for the opening day. If a board of trade is organized for anything, for what purpose is it organized but to handle the affairs of the city to the city's best interests?

Inasmuch as this is the first year of the University here, this occasion should especially be emphasized with proper ceremonies. Our people want it, but the question is who will take the first step?

A prominent citizen and business man of this city, who has a wise head on his shoulders, suggests a very pretty and effective program, which is as follows, in substance:

On the morning of Wednesday, September 26, beginning at a convenient hour, an address of welcome in behalf of the city should be made by Mayor Thomas, or some person representing the Major. This address should be replied to by Hon. N. P. Bryan of Jacksonville, president of the Board of Control, and Dr. Andrew Sledd, president of the University of Florida. These addresses may be followed by impromptu talks by other prominent citizens, who will naturally speak along the line appropriate to the occasion.

It is suggested that at the conclusion of the morning ceremonies, the formal opening of the University, with a proper program, be held at the University buildings in the afternoon, and the day's program to conclude with fireworks and speaking at the court house, or some other convenient point. The band stand may be used if the weather is fair, which would afford a much larger scope of accommodation

It is understood that President Sledd is arranging a most enjoyable literary program for the opening of the University, but this as a matter of course is applied strictly to that institution, and it behooves the Board of Trade or the citizens, or both jointly, to do something in the matter of making a public demonstration in token of this great event.

### AT THE OPERA HOUSE.

**Peruchi-Gypzene Company Entertained Good Audience Monday Night.**

An enthusiastic audience filled Edwards' Opera House Monday night to see the opening of the much-heralded Peruchi-Gypzene Company. And it was a well pleased audience, too, for the performance was undoubtedly one of the very best ever given here at popular prices.

The play was "The Hand of Man," a bright and stirring comedy-drama, full of action, life and interest and replete with excellent comedy situations,

Mr. Ed Lawrence, as Richard Rallston, leaped immediately into favor and is certainly the best leading man seen here in a long time. Mr. George F. Cotter kept everybody laughing nearly all the time he was on the stage and was the life of the play. He is one of those comedians who cannot be described. He is just funny, really funny, naturally, and you can't help laughing at or with him almost every time he speaks.

Miss Helen Amelia Reid was winsome, forceful and convincing as Rose Rallston, the energetic and loyal wife, and Miss Nina Faisig was bright, snappy and vivacious as "Betty." The rest of the company were all far above the average in ability and the play, free entirely from tedious and wearisome sentiment and love-scenes, was a real success.

The specialties between the acts, and there were plenty of them, were all new, bright and good. Lawrence and Gonzales, in their clever sketch, "The Cuban Spy," were vigorously applauded again and again. Baby Nell, a precociously bright little child artist, won high favor in some catchy new songs. Mr. Cotter was recalled several times for inimitable singing and dancing and Miss Flaisig kept everybody interested in several of the latest and brightest of serio-comic songs.

The company will play here tonight and Wednesday night, changing play and specialty program entirely at every performance,

The play for tonight is the famous sentimenal drama, "Eagle's Nest," which is said to be a most thrilling one.

# RHEUMATISM

## TROUBLESOME PAINS AND ACHES

While Rheumatism is usually worse in Winter because of the cold and dampness of a changing atmosphere, it is by no means a Winter disease entirely. Persons in whose blood the uric acid, which produces the disease, has collected, feel its troublesome pains and aches all the year round. The cause of Rheumatism is a sour, acid condition of the blood, brought about by the accumulation in the system of refuse matter, which the natural avenues of bodily waste have failed to carry off. This refuse matter coming in contact with the different acids of the body, forms uric acid which is absorbed by the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. Rheumatic persons are almost constant sufferers; the nagging pains in joints and muscles, are ever present under the most favorable climatic conditions, while exposure to dampness or an attack of indigestion will often bring on the severer symptoms even in warm, pleasant weather. Liniments, plasters, lotions, etc., relieve the pain and give the sufferer temporary comfort, but are in no sense curative; because Rheumatism is not a disease that can be rubbed away or drawn out with a plaster. S. S. S. is the best treatment for Rheumatism: it goes down into the blood and attacks the disease at its head, and by neutralizing the acid and driving it out, and building up the thin, sour blood, cures Rheumatism permanently. Being made entirely of roots, herbs and barks, S. S. S. will not injure the system in the least. Book on Rheumatism and any medical advice without charge.

## A PEARL WEDDING.

**Col. and Mrs. I. E. Webster Entertain Friends in Royal Style.**

The Pearl Wedding of Col. I E. Webster and Mrs. Harriet Barney Webster was celebrated at the residence of the bride in North Gainesville, on the evening of the 12 h inst., it being the thirtieth year of their marital relation.

The occasion was not only a wedding anniversary, but the opening of doors to their many friends of their new, spacious dwelling, which was exquisitely perfumed and artistically decorated with fragrant flowers, roses and evergreens.

Soon after the sun had passed the western horizon, the beautiful house and grounds of the bride and groom, known as "The Pines," were illuminated with gay Japanese lanterns, giving their house the appearance of the Pan-American exhibition, under the stars and lighted by electricity.

At the designated hour the bidden guests, numbering very near to one hundred, assembled, and after the welcome salutation by the daughters, Mrs. Maud L. Merritt and Miss Ethel, the exercises of the evening opened with a piano duet by Mrs. Becker and Mrs. Florence Graves, followed by the wedding march by Mrs. Graves, when Mr. and Mrs. Webster entered the parlors between ropes of woven garlands, which were supported by the two daughters. The bride and groom were attired in dress suited to the occasion, and were seated in two heirloom chairs, each 127 years old, having been handed down by ancestors of the bride. At this point the daughters and granddaughter, dressed in her grandmother's dress, covered the bride and groom with rose petals. The figures 30 were set with roses on a solid background of evergreens, which covered the side of the piano above the bride and groom.

The literary exercises of the evening opened with the reading of a poem, written and read for the occasion by Mrs. W. H. Palmer as follows:

### Out of the Old, and Into the New.

Out of the old, and into the new
Is the chant we sing, with Heaven in view;
Of all the earth 'tis equally true,
It's out of the old, and into the new.

The darkness of night has disappeared,
The sun returns by man revered;
Moon, stars and the azure blue
Are out of the old, and into the new.

The heavens and earth, the Scriptures say,
In years to come shall pass away;
To them we'll say, farewell, adieu,
We love the old and revere the new.

The pre-historic sands of time
Adorn the page of verse and rhyme
With legends old, and bold, yet true,
It's out of the old, and into the new.

Old ocean heaves a sigh for rest
From burdens borne upon her breast;
To friend and foe alike adieu,
Out of the old, and into the new.

The giant oak on yonder hill,
It's body rent by strength and skill,
Through calm and storm it ever grew,
It's out of the old and into the new.

The tender youth with book in hand,
Enters the school with the junior band;
As time goes by he has in view,
Out of the old, and into the new.

The flowers still bloom at "Engleside,"
Where the cricket calls at eventide
For companionship, of the wanted few
Who are out of the old, and into the new.

### To Host and Hostess.

Thirty years have gone apace,
You live to adorn this home with grace;
We enjoy your fortune, and happiness too,
That you're out of the old, and into the new.

Through the golden age of life to come,
Blest be this home, for duties done;
May thy joys be many, thy cares be few,
While from the old, and into the new.

The next in order was a piano duet by Mesdames Graves and Becker, which was followed by an address in well chosen words by Mrs. Lina Starke of this city.

Mrs. Julia D. Turner of North Gainesville followed with an original production committed to memory, which was well rendered, and is as follows:

"There are no friends like old friends,"
Some wise old poet has sung;
There are no joys like old joys,
When life and love were young.
There is no friend like a true friend,
Who leaves the world's harsh din
To open his heart, and open his home,
And bids us all come in!

Into the sacred shrine of home
Life's purest, sweetest, best,
That refuge where weak mortals flee
Away from the world—to rest.
A welcome to the friends of old,
The friends of those beautiful days,
where are they?

I fancy you each carry a volumn vast,
'Tis memory's volumn, worn and old,
With its record of the past;
You turn the leaves with a tender touch,
The leaves of the past so dim;
But where are they all, those cherished friends
Your youthful hearts hold dear!
Should you call the roll from memory's book
So few could answer—"Here."
Oh! Some are walking the golden streets
In a land of endless day.
And some from childhood's happy haunts
Have wondered far away,
And so tonight as you gather here,
Life's journey half-way done,
There is a welcome smile for the coming guest,
And a sigh for the absent one.

What if time's autumnal frost
Has silver gleamed your hair?
And what if your honored brows are marked
With the first faint lines of care—
What if your step is not so good
As in that long ago?
It matters not, you have kept the faith
And your hearts are young I know,
And tonight they will wander back again
O'er youth's unbroken plain
When you drank rich draughts from pleasure's cup
With just a spice of pain
For the boys and girls of '76
Were just as they are today,
They billed and cooed across the gate
In the silvery starlight gray,
And oh! the beatiful moonlight walks
With footsteps, steady and slow,
Along the shades of lonely lanes,
Those beatiful years ago

As for "mine host" and his help-mate fair
Who welcome us here tonight,
We believe with never a doubt
That to the friends of 1906 as well as those of '76
The Col's. latch-string is everout.

At this point in the exercises the family and guests were favored with a piano solo by Mrs. Becker, after which Mrs. Dr. S.L. Robb of this city, read in clear and distint tones, a selection by an author unknown, but suited to the occasion. At this juncture the bride and groom received the hearty congratulations of the guests, a scene long to be remembered.

The next in order was the feast.

Certainly, there was a bride's cake, and the bride cut the first piece therefrom. This cake contained a gold ring, a silver thimble and a silver coin, which chanced to be taken by guests, viz: Mrs. Thomas Means drew the ring, Miss Mary Bailey the thimble, and Miss Eva Means the coin.

Besides the bride's cake, there was angel food, chocolate cake and ice cream—cherry ice cream—pleasing to the eye and delicious to the palate, which was partaken of by the bride and groom, with spoons, heirlooms, once owned by the great-grandmother of the bride.

After the repast the parlors were again occupied by the family and guests, who were entertained with music and social intercourse.

At the close of a well spent evening, an evening long to be held in memory by all present, came the well wishes of guests, and, a parting "Good-night."

A GUEST

**Eminent Doctors Praise Its Ingredients.**

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes *than any other drug with which I am acquainted.* In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhœa (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, *there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as *the* tonic useful in all debilitated states."

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

# OPERATIONS AVOIDED

**Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.**

When a physician tells a woman, suffering from female trouble, that an operation is necessary it, of course, frightens her.

The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation, she felt that her death knell had sounded.

Our hospitals are full of women who are there for just such operations!

It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help.

The strongest and most grateful statements possible to make come from women who, by taking Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Margrite Ryan, Treasurer of St. Andrew's Society, Indianapolis, Ind., writes of her cure as follows:

Dear Mrs. Pinkham:—

"I cannot find words to express my thanks for the good Lydia E. Pinkham's Vegetable Compound did me. The doctor said I could not get well unless I had an operation for the trouble from which I suffered. I knew I could not stand the strain of an operation and made up my mind I would be an invalid for life. Hearing how Lydia E. Pinkham's Vegetable Compound had saved other women from serious operations I decided to try it, and in less than four months I was entirely cured, and words fail to express my thankfulness."

Miss Margret Merkley, of 275 3d Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

"Loss of strength, extreme nervousness, severe shooting pains through the pelvic organs, cramps, bearing-down pains, and an irritable disposition compelled me to seek medical advice. The doctor, after making an examination, said that I had a serious female trouble and ulceration, and advised an operation as my only hope. To this I strongly objected—and I decided as a last resort to try Lydia E. Pinkham's Vegetable Compound.

"To my surprise the ulceration healed, all the bad symptoms disappeared, and I am once more strong, vigorous and well; and I cannot express my thanks for what it has done for me."

Serious feminine troubles are steadily on the increase among women—and before submitting to an operation every woman should try Lydia E. Pinkham's Vegetable Compound, and write Mrs. Pinkham at Lynn, Mass. for advice.

For thirty years Lydia E. Pinkham's Vegetable Compound has been curing the worst forms of female complaints, all functional troubles, inflammation, ulceration, falling and displacement, weakness, irregularities, indigestion and nervous prostration. Any woman who could read the many grateful letters on file in Mrs. Pinkham's office would be convinced of the efficiency of her advice and Lydia E. Pinkham's Vegetable Compound.

**Secretary Shaw is trying to "bear" the silver market by refusing to buy what the Government needs at the lowest tender of 67 3-4 cents a fine ounce. When the Government wants to buy other products of the United States there is no attempt to "bear" the price. Why discriminate against silver?**

**Senator Heyburn of Idaho at the irrigation congress attacked President Roosevelt for his forestry policy and created quite a rumpus among the Republican brethren there, and so shocked the officials of the Agricultural Department who were in attendance that they were struck dumb. Senator Dubois and other Democrats present refused to mix up in the Republican row.**

**Plans are being made for a great extension of the signal corps work in the army. The War Department has designated Fort Omaha, Nebraska, as the most important school for enlisted men among the various army posts, and it will soon be raised to a four company post at which officers, as well as enlisted men, will be schooled in all the latest applicances for signalling, including wireless telegraphy, field telegraphs, telephones and balloon photography.**

The Republican policy of protectionism has stirred up the National League of Commission Merchants, who fear the loss of the large export trade in apples and dried fruit to Germany, unless a treaty of commerce is negotiated with that country before the tentative agreement expires in July, 1907. The new German tariff imposes a maximum tariff rate of $1.65 a barrel on apples and a minimum duty of 50 cents a barrel and a maximum duty of $1.08 per 100 pounds on dry fruit, instead of a minimum of 43 cents. As the Republican leaders have decided to stand pat, the outlook for the American fruit-grower is dubious, unless suitable legislation is enacted by Congress. The welfare of the farmers is the last thing the Republicans seem to think of.

## OUR HIGH FINANCIERS.

No one will dispute that the Wall street financiers are wide-awake to their own interests and usually get the better of the balance of the people. It is said that Wall street can focus its searchlight six months in the future, and the leading financiers are now reported to be selling large blocks of stocks. What does this anxiety of these large interests to reduce their holdings presage to the rest of us? Does it not suggest that prosperity, as viewed by Wall street operations, is on the wane and that the goose that has laid the golden eggs is becoming decrepit and barren? With the large crops and fair prices and our manufacturing plants fully occupied the railroads should increase their earnings, and one would think these wise men of Wall street would be buying stocks instead of selling.

There are perhaps good reasons for these bearish tactics if one looks carefully beneath the surface. One factor is the scarcity of money in Wall street by which loans on call were made at 30 per cent on September 4th, and it will not pay to carry stocks with such a burden to bear and a probability that a still greater flurry in the money market may be impending, which might approach a serious panic.

Another cause of disquietude is the fact that corporations must soon pay their share of the taxes like other people, and the Republican party that has preserved the railroad and industrial corporations from taxation has also enacted legislation to protect them. That favoritism is coming to a close, for even many of the Republican voters are becoming restless and dissatisfied. The trusts and combines that are mostly controlled by the Wall street financiers will have to reduce their enormous profits or competition will take away their business.

These hints of what may happen in the future are not intended to alarm those who are out of debt, but those who are involved in speculation would do well to follow the example of the financiers of Wall street and prepare for a collapse of the boom while there is time to do so. Money panics often come out of an apparently clear financial sky, and wise men watch the financial and political barometer to know what may be expected.

**The Gainesville Sun thinks it sees a future for that city as a furniture manufacturing center. The supply of available hardwoods suitable for furniture is becoming scant through all the regions in which furniture makers have been accustomed to look for it. Black walnut has long been too near extinction to be much of a feature in that line of manufacture. Other hardwoods are following it. There is a large acreage of hardwoods in close proximity to Gainesville. The "Gulf Hammock" which, if we are not mistaken, is within easy reach of that city, covers a large extent of country and is full of hardwoods of almost every variety indigenous to the United States. In fact all the hammocks of Florida contain woods which work up handsomely. Furniture may yet be a valuable item of exports from Florida. Editor McCreary should continue to agitate the subject.—Times-Union Short Talks.**

Representative Littauer, who it will be remembered just escaped prosecution by the statute of limitation route for the army glove contract fraud, has been visiting President Roosevelt at Oyster Bay. Reform was probably not mentioned, as it might hurt Littauer's feelings, but their talk was on evidently the more practical Republican lines of campaign funds and the like.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Prof. Tom F. McBeath has the following to say of State Superintendent Holloway in the last issue of his Florida School Exponent: "The Exponent believes that State Superintendent Holloway is honestly, conscientiously, industriously and to the best of his ability discharging the duties of his important office. While not aggressive he shows a disposition to be progressive, and if he has not introduced any radical reforms, he has at least made no serious blunders. Nor would we be understood by this to be endeavoring to 'damn him with faint praise.' We simply mean to say that so far in our judgment, his administration has been safe, sane and satisfactory."

There is a little city over in Canada named Port Arthur. The people own every public utility, pay smaller charges for water, light and telephone service than in other cities where these are owned by private capital, and yet derive enough profit from them to pay all municipal expenses and do not levy a cent of taxes for municipal purposes. How is that for economic suicide? Port Arthur, is it true, began at the beginning. Tampa has lost a million dollars by not beginning at the same point. This city has given away franchises which it will cost a million to recover—and that cost will grow every day until the matter is taken in hand and the gifts repurchased.—Tampa Times.

There are some legal obstacles in the way of carrying out Roosevelt's new spelling scheme in official papers. The names of many postoffices would have to be changed by law; for instance, New York, New Orleans, Newark, Seattle and others of that class. These would have to become Nu York, Nu Orleans, Nuark, Seattel, etc. Then, again, the name of all school boards and schools would have to be changed by substituting "skule" for "school" in the names. Executive orders cannot make these changes. Neither can fule filosofers. The fule and his fulishness have no place in law.

## Thousands Have Kidney Trouble and Never Suspect it.

**How To Find Out.**

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

**What To Do.**

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

## MAN SLAIN AND THEN ROBBED.

**His Throat Was Cut From Ear to Ear. Moonshiners Are Suspected.**

Gadsden, Ala., Sept. 17.—Early Friday morning the dead body of John Davis, aged 40, was found in Motlow's saloon on Sand Mountain, near Boaz, where he worked. There were two bullets in his body and his throat cut from ear to ear. His head had also been beaten with a bottle. Over $2,000 had been taken from the place by the murderers.

Davis' corpse was found behind the counter, indicating that he was on duty when slain. Late Friday night two moonshiners, fully masked boarded a Nashville, Chattanooga and St. Louis train at Mountainboro, near the scene of the murder, and attempted to assassinate Deputy United States Marshals Battles and Bell. They were about to fire on the officers from the rear when a fellow passenger informed the officers, who seized their rifles and chased the would-be assassins out of the car. The moonshiners sprang from the moving train.

It is supposed they are the men who killed Davis, and that revenge really prompted the deed. The officers had just destroyed an illicit distillery and it is believed the moonshiners regarded Davis as the man who informed on them to the officers.

Officers are scouring the country for the murderers. The scene of the crime is in one of the wildest sections of Alabama.

### Cut His Throat from Ear to Ear.

Lexington, Ga., Sept. 17.—Friday morning at 2 a. m. Alex H. Paul, 45 years old, a prominent young farmer near Sandy Cross, 7 miles east of here, became despondent over his crop, which has bothered him some time. He deliberately arose from his bed this morning, went to a nearby grindstone, pulled out his knife, opened it, sharpened it on the grindstone, then went to the front door, sat on the steps and wrote in the sand these words: "Goodby. God bless you. I did it myself." Then he cut his throat from ear to ear. Alex Paul was a good fellow, well liked and leaves a wife and seven children. He had a large family connection in the county.

### Pain From a Burn Promptly Relieved by Chamberlain's Pain Balm.

A little child of Michael Strauss of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strauss came to Mr James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burns, strains and lame back, and have never known it to disappoint." For sale by all druggists.

# TORTURED BY ITCHING ECZEMA

Suffered Tremendous Itching Over Whole Body—Scratched Until Bled—Worse at Night, With Soreness and Excruciating Pains—A Western Lady's

WONDERFUL CURE BY CUTICURA REMEDIES

"Last year at this time I suffered with a tremendous itching on my back, which grew worse and worse, until it spread over the whole body, and only my face and hands were free. For four months or so I suffered the torments of the damned, and I had to scratch, scratch, scratch, until I bled. At night when I went to bed things got worse, and I had at times to get up and scratch my body all over, until I was as sore as could be, and until I suffered excruciating pains. I did not know what it was, and resorted to a number of blood purifiers, using at times also Cuticura Soap. They told me then that I was suffering from eczema. Then I made up my mind that I would also use Cuticura Ointment and Cuticura Resolvent. I used them according to instructions, and very soon indeed I was greatly relieved. I continued until well, and now I am ready to recommend the Cuticura Remedies to any one who suffers as did your obedient servant. Mrs. Mary Metzger, Sweetwater, Okla., June 28, 1905."

# TORTURING, DISFIGURING

Humors, Eczemas, and Itchings Cured by Cuticura

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of scalp, as in scalled head—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt.

Sold throughout the world. Cuticura Soap, 25c., Ointment, 50c., Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60), may be had of all druggists. A single set often cures. Potter Drug and Chem. Corp., Sole Props., Boston, Mass.

### Confederates at Gettysburg.

Gettysburg, Pa., Sept. 17.—On the historic battlefield where they clashed for supremacy, the survivors of General Pickett's division of the Confederate army met Saturday in fraternal reunion, the survivors of the Philadelphia Brigade, which was composed of four regiments of Pensylvania volunteers. The reunion was held at the "Bloody Angle," where General Pickett made his famous charge. A feature of the gathering Saturday was the presentation of General Armistead's sword to the soldiers of the south. General Armistead fell during the charge and his sword has since been in possession of the Philadelphia soldiers.

### Men Past Sixty In Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

### Should Restore Canteen.

Washington, Sept. 17.—Brigadier General Theodore J. Wint, commanding the department of Missouri, has reported to the war department that in his opinion the canteen should be restored at army posts. He says: "The demoralizing influence of the resorts surrounding posts cannot be too strongly emphasized, giving rise as it does to a large proportion of the most serious offenses and pratically all those with penitentiary punishments be prevented by the restoration of the canteen."

### Chamberlain's Cough Remedy Acts on Nature's Plan.

The most successful medicines are those that aid nature. Chamberlain's Cough Remedy acts on this plan. Take it when you have a cold and it will allay the cough, relieve the lungs, aid expectoration, open the secretions and aid nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. Price 25 cents. Large size, 50 cents. For sale by all druggists.

### Unique Point of Law.

Wallace, Idaho, Sept. 17.—To avoid taking Steve Adams out of the state, Sheriff Sutherland is traveling overland from Meadows to Silles, a distance of 150 miles, through the roughest part of Idaho. Adams' attorney's challenged the jurisdiction of the officer in going out of the state, and stood ready to serve legal process the instant this should be done. Adams was held as a witness in the Steunenburg case, and is being brought to Wallace to answer the charge of murder. The sheriff went through Meadows Thursday, but his trace since then has been lost.

### An Ounce of Prevention

Is worth a pound of cure. There are many poor sufferers, consumptives, who are hopeless of getting well—who, if they had taken care of themselves, would now be well. A cough is the foundation of consumption. Ballard's Horehound Syrup will cure that cough. Mrs S——, Great Falls, Montana, writes: "I have used Ballard's Horehound Syrup in my family for years—my children never suffer with coughs." Sold by W. M. Johnson.

### Rain Washes Away Tracks.

Chattsworth, Ga., Sept. 17.—One of the heaviests rains for several years fell here Friday. The mountain rivulets are all out of their banks and great damage has been done to the lowland crops. The Louisville and Nashville tracks were badly injured and trains unable to move for several hours. Many small bridges over the county were completely washed away.

## TELEGRAPHIC NEWS.

**Convention Goes to Waynesboro.**

Statesboro, Ga., Sept. 17.—Only one ballot was cast Friday which resulted in a tie. The morning session was taken up with speech making. A conference committee consisting of four delegates from each side was appointed to confer with Brannen and Sheppard to see if some agreement could be reached. The conference committee met and Messrs. Brannen told the committee to adjourn until Monday, Sept. 24, to meet at Waynesboro instead of Statesboro. Mr. McKenzie, of Burke, voted with the Brannen delegation and gave the vote necessary to carry the motion. This caused some excitement.

**Is Indicted For Assault.**

Savannah, Ga., Sept. 17.—John J. Garrity, former superintendent of the street cleaning department, who lost that position because of his custom of lending money to negro employes of his department at usurous rates of interest, and who was then promptly appointed plumbing inspector by Mayor Myers, was indicted for assaults upon two of the negroes who were under him, and who were dilatory in making settlement.

**The Breath of Life.**

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by all druggists. Price 50c and $1.00. Trial bottle free.

**Quickly Completed Work.**

Denver, Sept. 17.—By disposing of the nomination for governor in the selection Friday of Philip D. Stewart, of Colorado Springs, the naming of Alfred Ebent for treasurer and the adoption of a platform, the Republican state convention made it possible to complete its work quickly Saturday.

**Well Worth Trying.**

W. H. Brown, the popular pension attorney of Pittsfield, Vt., says: "Next to a pension, the best thing to get is Dr. King's New Life Pills." He writes: "They keep my family in splendid health." Quick cure for headache, constipation and billiousness. 25c. guaranteed at all drug stores.

**J. F. Gower Falls Dead.**

Atlanta, Sept. 17.—While sitting at the dinner table with his wife and six children, J. F. Gower, the transfer clerk of the Georgia Railway and Electric company, fell dead at his home in this city Friday. For some time Mr. Gower has been in bad health. Heart trouble was the cause of his headth.

# The Tobacco That Made Chewing Popular

Man's fondness for chewing tobacco is created and popularized by the tobacco produced in the famous Piedmont tobacco belt. Only choice selections of this well matured, thoroughly cured leaf are used in making SCHNAPPS. That's why SCHNAPPS requires and takes a smaller amount of sweetening than any other kind—and that's why SCHNAPPS has a wholesome, stimulating and satisfying effect on chewers.

There are many imitations of SCHNAPPS claiming to be "just as good," but without the flavor or quality that has made SCHNAPPS sales more than all similar tobaccos.

Schnapps

It is made in the Reynolds factories, famous for producing the best chewing tobaccos, by clean, sanitary processes, under the same direction, since 1875, of men who have made the business a life study. They are the largest and best equipped flat plug factories in the world and are situated in the very center of the world's greatest chewing tobacco district.

If you've never chewed SCHNAPPS, now is the time to get acquainted with the cleanest, most healthful, stimulating, satisfying and wholesome form in which tobacco can be used. Do not accept imitations.

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

## Has Less Sweetening than Imitations

**Lightning Knocks Out Boy's Teeth.**

Decatur, Ala., Sept. 17.—A most peculiar freak was played by lightning near Moulton, in Lawrence county. An eleven-year-old boy named Willie Tollison was driving some horses from the pasture to the barn during a heavy rain and thunder storm. A bolt of lightning struck him, knocking all of his teeth out, but apparently not injuring him at the time. Since then, however, the boy has been complaining of his joints, saying that they feel as though they would crumble. The boy is able to walk, however, but says his bones pain him very much.

**Starving to Death.**

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters, with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by all druggists.

**He Was Stabbed to Death.**

Monroe, La., Sept. 17.—Edward Caldwell, a prominent citizen of this place, was stabbed to death by Marshal Johnson, of Union Parish, in the public road, near here. The men were friends, and had been joking when Johnson became angry about something Caldwell said and demanded that he retract it. Upon his refusal he was stabbed by Johnson, death resulting instantly. The latter escaped.

**Dr. Finn's Testimony Interesting.**

Dr. Thomas Finn of Boonsboro, Mo., who has practiced medicine for 32 years, says he has used every prescription known to the profession for treatment of kidney and bladder diseases, and says he has never found anything so effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It stops irregularities and builds up the whole system. J. W. McCollam & Co.
